Data sets

R data sets:

CRAN051001a.txt	Locations of CRAN mirrors 1 October 2005
au.csv	Data about 543 cities in Australia
meuse	Locations and top soil heavy metal concentrations, along with a number of soil and landscape variables, collected in a flood plain of the river Meuse, near the village Stein. Heavy metal concentrations are bulk sampled from an area of approximately 15 m x 15 m.
meuse.grid	The data frame has 3103 rows and 2 columns; a grid with 40 m x 40 m spacing that covers the Meuse Study area
s100	Simulated data set of the class geodata
sic.100	A data set with rainfall locations and measurements.
bei	A point pattern giving the locations of 3605 trees in a tropical rain forest. Accompanied by covariate data giving the elevation (altitude) and slope of elevation in the study region.
nztrees	NZ trees dataset which represents the positions of 86 trees in a forest plot approximately 140 by 85 feet
longleaf	Tree locations marked by diameter at breast height (dbh) in centimeters
amacrine	Austin Hughes' data: a point pattern of displaced amacrine cells in the retina of a rabbit. A marked point pattern.
lansing	The data come from an investigation of Lansing Woods, Clinton County, Michigan USA. The data give the locations of 2251 trees and their botanical classification (into 6 different species: hickories, maples, red oaks, white oaks, black oaks and miscellaneous trees). The original plot size (924 x 924 feet) has been rescaled to the unit square
cells	The data record the locations of the centres of 42 biological cells observed under optical microscopy in a histological section. The microscope field-of-view has been rescaled to the unit square.
japanesepines	The data give the locations of Japanese black pine saplings in a square sampling region in a natural forest.
redwood	The data represent the locations of 62 seedlings and saplings of California redwood trees in a square sampling region.
fmd	The data give spatial locations and reported days of foot-and-mouth disease outbreaks in the county of Cumbria
worldcities.csv	Geographic locations and population about 13000 major world cities and towns
ppr_data_encoded.csv	GPS coordinates of the Property Price Register data from years 2012-2017
Noise_Complaints	Information about locations of various noise complaints in New York
